The Substance Abuse Prevention Skills Training (SAPST) is a foundational course of study in substance abuse prevention. The SAPST was developed by SAMHSA's Center for Application of Prevention Technologies (CAPT), and is grounded in current research and SAMHSA's Strategic Prevention Framework. It provides knowledge and skills to implement effective, data-driven prevention programs, practices, and policies that reduce behavioral health disparities and improve wellness. Individuals working for an OASAS funded prevention provider will be prioritized. Limited to 30 participants.

There is an on-line component to be completed prior to the first session. Once you are registered for the SAPST trainings, information on how to access the on-line portion will be emailed to you. Hours will be earned as follows:

On-line component = 5 hours; In-person (4 day) training = 26 hours

TOTAL HOURS = 31

The Western New York Prevention Resource Center (WNY PRC) and the Substance Abuse Prevention Skills Training (SAPST) are funded by the New York State Office on Addiction Services & Supports (OASAS).
